Report of Principal and School Improvement Council

This year has been a year of growing, learning and implementing state of the art programs. We are extremely proud to be recognized as a New Tech High School grant recipient. This will afford students the opportunity to learn at higher levels using project based learning. At Scott's Branch High School, we continue to pride ourselves on excelling in academics, activities, and athletics to create a balanced and comprehensive high school experience for all of our students. Academically, students are offered a diverse course of study which assesses students at their current capabilities and propels them forward via a challenging curricula. We promote rigor in order to enable students to move successfully beyond the halls of SBHS. We offer college preparatory, honors and dual credit courses in our core curriculum. This year we will implement an English AP course which will broaden the educational landscape offered here at SBHS.

We offer a wide variety of elective courses which consist of, but are not limited to the following: visual and performing arts; foreign languages; business and technology; JROTC; Agricultural Sciences; physical education; and, health courses from which our students may select. A partnership with FE Dubose Career Center and Central Carolina Technical College affords our students the opportunity to focus on their specific majors and career choices. We will continue to implement programs of study based upon our students' need and projected career demands of the 21st century. As a result of SBHS's pursuit of excellence in 2012, our students have been the beneficiaries of scholarship offers in excess of 1.8 million dollars, our students were afforded numerous opportunities to exhibit and enhance their skills and abilities.

An annual art show is provided by our art department to display our students' portfolio of artwork to the community. We garner a variety of student-focused organizations that have earned local, state, and national recognition and awards, the caliber of which extended all the way to Washington, D.C. where WIS television accompanied one of our students to celebrate the momentous occasion of her personal art being placed in the art gallery of Congressman James Clyburn.

Finally, our athletic programs have excelled and have proven to be a vehicle for several students to receive athletic scholarships, having two state football championships to our credit. We continue to provide our students with opportunities to participate in virtually all of South Carolina High School League sanctioned sports as well as district-approved competitive club sports. Each year we have been fortunate to have multiple teams and individuals compete at the district and state levels. Whether it's academics or athletics, Scott's Branch High School will continue to command the attention of the public.

ESEA/Federal Accountability Rating System

In July 2012, the South Carolina Department of Education was granted a waiver from several accountability requirements of the federal Elementary and Secondary Education Act (ESEA). This waiver allowed SC to replace the former pass/fail system with one that utilizes more of the statewide assessments already in place and combine these subject area results with graduation rate (in high schools) to determine if each school met the target or made progress toward the target. This analysis results in a letter grade for the school rather than the pass/fail system of previous years. For a detailed review of the matrix for each school and districts that determined the letter grade, please use the following link: <http://ed.sc.gov/data/eSEA/> or request this information from your child's district or school.
